**The Green  
Key**

January 23, 2010

José Campo  
General Manager  
Caribe Hilton Hotel  
1 San Gerónimo Street  
San Juan Puerto Rico 00901-2442

Dear Mister Campo:

During the past months, our Green Key team has been assisting Mr. Eddie Ramírez towards the achievement of the goals established in the Action Plan designed after our Gap Analysis report to you. Working with your team has been an exciting journey. The commitment they have demonstrated towards reaching the goals is very inspiring.

After reading the evaluation and recommendations of the members of the Green Key Evaluating Committee, and taking into consideration the steps forward since the initial stage of work, we inform you that the Caribe Hilton Hotel has complied with the Green Key Criteria; which enables the property to receive the certification. Green Key has three levels of performance: Compliance, Notable and Outstanding. It is also an honor to inform that your property has reached the highest level:

### **OUTSTANDING**

This level of performance represents a challenge, as it is important to maintain such level; but we have no doubt that you and your team can do so. It is also important to remind, that it must be informed to us which voluntary criterion is being selected for the following year (2011) as stated in the Green Key Guidance Notes.

Congratulations once again and we look forward in meeting once again at the Certification Ceremony!

Lourdes Díaz Colón  
Puerto Rico Green Key Coordinator &  
FEE Vice-President
